

As a result of the 1994-95 season, the
American Fisheries Society (AFS) and
Canadian Wildlife Service (CWS) have
been working closely to develop a
joint research program to study the
effects of climate change on the
ecosystem of the Great Lakes. The
program is a joint effort of the
AFS and CWS, and is funded by
the National Science Foundation (NSF).

Resumo de Contos Cruéis

A crueldade e a literatura conhecem mil formas de encantar e inquietar. Este breve manual da crueldade, escrito por quase 50 autores, entre eles Dalton Trevisan, Rubem Fonseca e Marçal Aquino, apresenta todas elas com riqueza de detalhes.

Mil formas, mil vozes: a poética, a cinematográfica, a fragmentária, a cômica, a erótica, a onírica. “Neste livro, a polifonia alcança resultados maravilhosos que reafirmam a qualidade de nossos ficcionistas contemporâneos”, escreve Linaldo Guedes na apresentação de Contos Cruéis.
