Resumo de Wrecked

She was destined to show him the joy and pain of living. Joe Campbell has it all: money, success, and fame. As lead singer of alternative rock band Blind Man's Alibi, he holds the vague conviction that life on the road, and nights filled with meaningless sexual encounters, is enough.

Until her - Emma Travers. She is a breath of fresh air. Sunshine to his darkness. The one who changes him, pushes him, and teaches him to truly live. He never imagines she is hiding a devastating secret.

Or that the same emotion that could steal his heart, would ultimately break it.
