

Defense Modernization Plans through the 2020s

Addressing the Bow Wave

A Report of the CSIS International Security Program

AUTHOR

Todd Harrison

Resumo de Defense Modernization Plans Through the 2020s: Addressing the Bow Wave

This report details the plans for major U.S. Defense Department acquisition programs over the next 15 years and explores the complicating factors that may make the situation more problematic for policymakers.

It analyzes a range of options to mitigate the bow wave, including increasing the budget, cutting additional force structure, and making trades among major acquisition programs. The report finds that while none of the choices available are easy, it provides an opportunity for the new administration taking office in 2017 to better align modernization plans with defense strategy.
