Resumo de Fink Angel: Legacy

From the world of Judge Dredd, comes the story of Fink Angel, the most rotten son in the Angel Gang! A new story set in the Cursed Earth, following the Summer 2016 release of the long-awaited Judge Dredd: The Complete Cursed Earth, bringing readers bang up to date.

THE EVIL IS PASSED ON FROM FATHER TO SON! The Angel gang are the meanest, most deranged villains ever to come out of the Cursed Earth. An all-male family of psychopathic cannibal hillbillies, the gang comprised of Pa, the patriarchal leader, and his sons Link, Junior and Mean.

Mega-City One's greatest lawman Judge Dredd thought that he had seen the last of the Angels after his epic quest to find the Judge Child. And then he encountered the Fink eldest sibling of the clan, whose speciality and passion in life involved him creating deadly concoctions to use on his poor victims.

The latest member of the Angel gang is Ratfink a Cursed Earth-dwelling fiend who preys on passing helltrekkers. Just like his father Fink Angel, Ratfink has a love of poisons, rodents and mayhem Features art from the incredible talents of Mick McMahon, Carlos Ezquerro, Peter Doherty, Tiernen Trevallion!"
