Resumo de Help!

Cambridge English Readers is an exciting new series of original fiction, specially written for learners of English. Graded into six levels, from elementary to advanced, the stories in this series provide easy and enjoyable reading on a wide range of contemporary topics and themes.

Help! is a comic fantasy set in contemporary London. Frank Wormold is an unsuccessful writer whose luck suddenly changes when a Hollywood producer offers him a large sum of money for one of his stories.

The problem is he's only written half of the story. To finish it on time he uses the help of a computer. At first the computer is very helpful, but when it starts to take over first his story, and then his life, he needs "help" of a different kind.
