**A HUMANIST PHILOSOPHY  
OF ECONOMIC LAW**

**RICARDO SAYEG . WAGNER BALERA**

# Resumo de Humanistic Capitalism

The trajectory of human thought hints at certain historical facts that somehow have a decisive influence on the path ahead. Presently, in our absolute post-modern times, the notion and implications of a Risk Society have properly infiltrated social thought, albeit with a degree of perplexity and resistance.

It starts with a seeming contraposition: Capitalism can be humanistic. It is worth mentioning that the act of generating wealth is not solely aimed at accumulating financial resources. Therefore, the authors perused the large list of references that includes both classical and contemporary thinkers who, from different perspectives, sought to reflect upon the ethical implications that must subject Capitalism to the humanist's purposes for which Risk Society believes it is destined.
