PREY

"TERRIFYING . . . IRRESISTIBLY SUSPENSEFUL."
New York Times Book Review

Resumo de Prey

In the Nevada desert, an experiment has gone horribly wrong. A cloud of nanoparticles micro-robots has escaped from the laboratory. This cloud is self-sustaining and self-reproducing. It is intelligent and learns from experience.

For all practical purposes, it is alive. It has been programmed as a predator. It is evolving swiftly, becoming more deadly with each passing hour. Every attempt to destroy it has failed. And we are the prey."
