## Resumo de Sunset

Sometimes all you can do is go out with guns blazing! In the noir tradition of Chandler and Spillane comes Sunset, a two-fisted tale of revenge and redemption. On the surface, Nick Bellamy looks like any other veteran retiree left behind by a modern world.

In reality, Nick is a former enforcer, who stole a fortune and years of freedom from his former mob boss. Now, in the twilight of his life, Nick will lose everything he cares about except two things: revenge...

and the chance to die with his guns blazing! Writer Christos Gage (Avengers Academy, GI Joe: Cobra) and artist Jorge Lucas (The Darkness) promise to hit hard with Minotaur Press's first original graphic novel and make you forget all about your Prius and organic whole-grain trans-fat-free diet!
