

Resumo de Supergirl by Peter David & Gary Frank

In this bold reimagining of the Girl of Steel, Lex Luthor's familiar synthetic creation "Matrix"--who mimics Superman's powers in a miniskirt--merges with human girl Linda Danvers to create a new Supergirl.

These establishing issues develop their dynamic and set the stage for the compelling series while welcoming pivotal appearances by Superman, Gorilla Grodd and Ma and Pa Kent. Written by the legendary Peter David and illustrated by the artist behind the #1 New York Times bestselling graphic novel series Batman: Earth One, Gary Frank, this new collection of their breakthrough run on Supergirl is a must-have for new and old fans alike.

Collects issues #1-8.
