## Resumo de The Curiosity

What if the love of your life died decades before you were born? When Dr. Kate Philo and her scientific exploration team discover the body of a man buried deep in the Arctic ice, her egocentric and paranoid boss, Erastus Carthage, orders the frozen man to be brought to his lab in Boston and reanimated.

The endeavor is named The Lazarus Project, and as the man, Jeremiah Rice, begins to regain his memories, the last thing he recalls is falling overboard into the Arctic Ocean in 1906.

When news of the project breaks, it ignites a media firestorm and protests by religious fundamentalists. Thrown together by fate, Kate and Jeremiah grow closer. But the clock is ticking and Jeremiah's new life is slipping away.

With Carthage planning to exploit Jeremiah while he can, Kate must decide how far she is willing to go to protect the man she has come to love. A gripping, poignant, and thoroughly original thriller, *The Curiosity* raises disturbing questions about the very nature of life and humanity.
