THE EUROPEAN UNION AND MILITARY CONFLICT MANAGEMENT
Defining, evaluating and achieving success
Resumo de The European Union and Military Conflict Management: Defining, Evaluating and Achieving Success

This text provides the first comprehensive review of the European Union's role in military conflict management beyond its borders and makes an important contribution to debates on the EU's role in global security governance.

The EU has launched five military operations within the framework of its Common Security and Defence Policy with the explicit purpose to help manage violent conflicts beyond its borders. The book develops a definition and a set of criteria for success in military conflict management and applies this new analytical framework in a comparative case study of the five EU military operations undertaken in Macedonia, Bosnia and Herzegovina, the Democratic Republic of Congo, Chad and the Central African Republic.
