

The Strange Deaths of

BATMAN

Resumo de The Strange Deaths of Batman

One of the staples of super-heroic sagas is the story in which the hero appears to die -- and even his closest allies believe it. These startling stories from the 1960s, 1970s and beyond, feature the supposed death of The Dark Knight, and the fallout of his demise. This exciting graphic novel includes appearances by Robin, The Joker, The Riddler, Nightwing, Lex Luthor and more.
