

*"One of the great comic novels of the decade, (WHIM) is pure delight, a book with a smile built into just about every line." — Peter Tennant*

# WHIM

The hysterical story of a magical teenager sent to earth by Chance on a quest for the big U.T. (Ultimate Truth). But Whim is continually distracted by football, sex, and a sixty-foot pot plant. It's tough being human.

**Luke Rhinehart**
